A PARALLELOGRAM

If you knew your fate—would you accept it? Or try to change it? Bee is a young woman who believes she has an uncanny ability to see the future, and maybe even alter it. From the playwright and Tony Award®-winning director who brought you *The Unmentionables* and *The Pain* and the *Itch* comes this dark, funny world premiere about a woman bent on reinventing her own destiny—and possibly the world. Interpreters: Patti Kaden & Susan Sotnick Sign Master: Crystal Schwartz
